Engineering Mobility for Accessibility

Gazelle 250 S
Power Wheelchair

Gazelle 250 S

Slick and stylish would be the best way to describe the Gazelle 250 S model. With MVS you get extra lateral and lumbar support. Seating customised around you, your needs, your comfort - on this range we can incorporate all the seat functions that you might need to suit your lifestyle. This power wheelchair might look all stylish and polished, but under that fibreglass coating is still the radical outdoor machine that will give you nimble indoor performance with powerful outdoor capabilities.

Tilt-in-Space ... Power Recline ... Seat Elevation

Gazelle 250 S

A stylish power wheelchair with comfortable seating with good indoor / outdoor capabilities. Designed to be affordable without sacrificing versatility or comfort, the Gazelle power wheelchair range is simple, rugged and sturdy but it can still be fitted with all the seat functions to make your life a bit more comfortable. The seating on all our power wheelchairs are custom-designed around your requirements, measurements and needs, none of our power wheelchairs are off shelf productions just like no one physical disability is the same. Our Power Wheelchairs are as unique as their users!
